

A Win For Chris' Dips!

We're very excited to announce that our Heritage Dips have taken home the Gold Award for food at the 2015 Australian Packaging Design Awards! These Awards aim to celebrate and recognise companies who are imaginative, innovative and creative in producing packaging of a high standard.

Chris' Australian owned, made and designed Heritage Dips were recognised as a leader in the food industry, and it's easy to see why. With our sustainable terracotta pots (that make entertaining easy by allowing you to serve on your table straight from the designer pot, and really make the gourmet ingredients inside the star attraction,) and our innovative sleeves that bring the ingredients to life with beautiful photography, our Heritage Dips really are leading the way.
